

Supply Management

FRESH, LOCAL, HIGH-QUALITY EGGS

FOR CANADIANS

What is the system of supply management?

- The system **manages** the **supply** of **eggs, dairy** and **poultry** in **Canada**.

- It's run by Canadian farmers who agree to follow a **consistent set of rules**.

- The system **promotes the highest standards** for food safety and farming practices. It also **ensures** that Canadian farmers receive a **fair return** for their effort.

Who benefits from supply management?

Canadian consumers enjoy eggs from local farmers that are among the best in the world for quality and freshness.

Canadian communities stay vibrant and strong, because supply management strengthens Canadian egg farms, creating local jobs and opportunities.

Canadian farmers benefit from stable markets and income, allowing them to remain the backbone of our country, their farms and rural communities.

A healthy and sustainable choice

Canadian egg farmers are committed to building a sustainable future—today and for generations to come. We work with industry partners and researchers to lead the way in food safety, animal welfare and innovation.
